

## Social Responsibility

Neutral Posture is committed to discovering and implementing alternatives to filling our nation's landfills, and is willing to partner with customers on exploring these paths together, regardless of the chair's origin.

Neutral Posture has developed a number of options to assist our eco-friendly customers, recognizing that our partnership today will create a better tomorrow for everyone.

### How it Works

Contact us for full details on these programs\*

#### Registered Discount

Registration of any returned products for credit towards a new chair purchase within 6 months of returning the product.

#### Removing and Hauling Quote

With the same simplicity as a bid for delivery and installation, Neutral Posture's CDM team can provide a quote for "removal and hauling" and coordinate a customized alternative to standard landfill disposal.

#### Refurbishing Referral

Get connected with one of our "green" partners in your area and receive documentation for the purchase of new product.

#### LEED Certification Checkpoints

We can assist you in achieving results on your LEED certification that will pass audit.

#### Become A "Removal Partner"

Register with NP as one of our national or local contacts for recycling and/or full refurbishing.

\* Neutral Posture is not responsible for any shipping or freight charges involved in the program.
