KEY LOCK PROGRAM 220
General Information 220
How to Specify Key Alike 220
Key-alike ordered prior to 6/12/00 221

General Information

PANELS

Width dimension of all panels is centerline to centerline of adjacent panel connectors.

Panel thickness is 1½". Panel thickness at the base covers is 2".

FABRIC PANELS

Fabric panels incorporate a mineral wool core construction. Fabric panels are acoustical and fully tackable. The base raceway is nominally 5" high.

INSERT PANELS

Insert panels are constructed with a tapered aluminum frame that is mitered in the corners. Insert panels may be ordered with plexiglass, laminate, perforated aluminum or as an open frame for complete accessibility through the panel.

STACK-ON PANELS

Stack-on panels connect on the top of any standard panel to provide additional privacy or new aesthetic options and can also be load bearing.

PANEL CONNECTORS

Panel connectors are 1½" diameter and required at every panel connection and panel end (except when postless end assembly is used). Posts are painted to match the selected trim finish and include an adjustable glide on the bottom for leveling.

POWER

Fabric and insert panels accept electrical components.

Equity panels distribute power through the office and directly to the individual workstation through field-installed modular, electrical wiring components in the base of the panels. The panel base is factory prepared to accept a terminal block in a centered location where two 20-amp receptacles can be installed; one on each side of a panel, arranged back-to-back. An auxiliary side mount duplex receptacle is also available and plugs directly into the side of the terminal block connector end when a second duplex receptacle is required.

RACEWAY

The panel base cover provides openings for receptacles and/or communication outlets, which can be covered when not in use.

All panel bases provide a cable management segment to facilitate lay-in of workstation cables and cords.

CABLE CAPACITY

ELECTRICAL	WITH		WITHOUT	
FILL	100%	40%	100%	40%
Cat 5	36	14	102	40
Cat 6	28	11	80	32

STORAGE

All storage components come standard locking.

Master key and key alike are available upon request.

LEGACY PRODUCTS

Neutral Posture offers Legacy products for existing Equity which was ordered before February of 2016.

For any code compliance testing data, please contact Customer Service at customerservice@neutralposture.com or 979.778.0502.

ENVIRONMENTAL IMPACT

Neutral Posture takes great pride in providing one of the most environmentally friendly furniture systems available on the market today.

Building an effective Green Program takes a company-wide effort, but we think it's worth the effort to ensure that our manufacturing process leaves the smallest possible footprint on the environment. Neutral Posture products are designed and manufactured to support a long and useful product life. Our products, if need be, can withstand repeated service, repairs and handling; and our products are made with standardized parts and components which make replacing worn out parts easy and as green as possible.

The steel and plastic materials used to construct Equity can be recycled after the product's life. The system is also designed to be cleaned with low environmental impact materials.

The clean technology used to manufacture the Equity system results in negligible off-gassing from the product.

We continually work with many 3rd party organizations to firmly establish a quality Sustainability Program.

- BIFMA level® Certification
- SCS Indoor Advantage Gold Certification

- Underwriters Laboratories (UL)
- Canadian Standards Association (CSA)
- Occupational Safety and Health Administration (OSHA)
- ISO 9001:2015

GREEN MANUFACTURING PROCESS

Neutral Posture is highly efficient in its manufacturing process. New roll forming machines can change between parts with zero scrap. Current manufacturing efforts recycle process water and refrain from using hazardous process chemicals.

PLASTIC

Neutral Posture uses plastic which contains up to 25% pre-consumer recycled plastics. The majority of the plastics used in Neutral Posture products are #3 and #7 plastics and can be recycled in many areas.

STEEL & ALUMINUM

Neutral Posture products contain steel and aluminum that is 100% recyclable. Additionally, up to 25% of this steel comes from pre-consumer recycled product. Aluminum maintains a high scrap value and is known for having a very long working life.

FABRIC

Neutral Posture maintains an excellent supply of green fabrics. These fabrics are made from pre- and post-consumer recycled materials. Some fabrics contain 100% recycled materials and continues to divert recycled plastic from landfills, turning it into beautiful designs.

PANEL INNER

Neutral Posture uses mineral wool, spun from basalt and volcanic rocks to provide lightweight, sound resistant panels. These mineral wool inserts are considered rapidly renewable products.

WOOD

Wood worksurfaces and panels use 100% recycled/recovered wood fiber. All adhesives used in these products are virtually VOC-free and pass stringent emission standards.

GREEN SHIPPING INITIATIVES

Neutral Posture holds their freight carrier partners accountable to similar criteria as suppliers, however, due to the immense impact freight companies have on the environment, all carriers must also become a partner in the Environmental Protection Agency (EPA) SmartWay program within one year of service. All freight carriers are screened through a logistics company and become a partner associate with Neutral Posture based on annual evaluation reports.

PACKAGING OPTIONS

Our cardboard shipping boxes are produced from 45% recycled material and 100% of the materials come from renewable pulp sources. For large orders, customers can choose to use a box made from 100% recycled materials for an upcharge.

A LONG AND HEALTHY PRODUCT LIFE

Neutral Posture products are made to last, as is evidenced by our limited lifetime warranty. Neutral Posture has been around since the 1980s and it is not unusual to find original products from our first year of production in perfect working condition. Although we are continually improving our products, we allow for retrofitting of earlier generations. This allows the customer to upgrade individual components as desired without having to discard the product they already have or purchase a new one. This helps avoid filling landfills with used furniture and is another way in which Neutral Posture customers contribute to their immediate health and wellbeing as well as the continued wellness of our environment.

For more information about Neutral Posture's sustainability program, visit NeutralPosture.com/sustainability.

Selling Policy

TERMS AND CONDITIONS

For all non-rated or new accounts, payment terms are Cash in Advance (C.I.A.) until credit has been approved or rated. Please send full credit information and references and allow time for Credit Department approval.

For all established accounts, payment is due within thirty (30) days from the invoice date. Neutral Posture (NP) reserves the right to change or cancel the terms of sale based on volume, credit rating and/or credit information. Prepayment, whole or in part, may be requested at any time at the discretion of the corporate office. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

Past due accounts are subject to a 1.5% late charge or maximum amount permitted under local law, for each thirty (30) days the outstanding balance remains open after the due date.

Withholding of payments based on carrier damages, shortages or other disputes is illegal and subject to charges.

Neutral Posture does not accept credit cards.

ORDERING

All orders must be in writing; faxed, emailed or mailed. The product model number(s) contained in the order acknowledgment shall be the final expression of the order. A purchase order is not binding on NP until customer has received NP's order confirmation or acknowledgment. Orders must have a contact name and phone number. Orders may not be canceled without written consent of Neutral Posture.

To expedite complete/correct entry of your order, be certain all model numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order number(s), bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Orders should be sent to:
Neutral Posture, Inc.
3904 N Texas Avenue Bryan, TX 77803
979.778.0502 (Option 2)
800.446.3746
979.778.0408 FAX
E-mail: orderentry@neutralposture.com

When an order is received, it is assigned a scheduled ship date. That date is shown on the order acknowledgment.

Purchase orders may not be changed or canceled, in whole or in part, without prior written consent of NP. Changes may affect delivery dates. Expenses incurred because of changes shall be charged to customer. In the event of cancellation, customer will be liable for reasonable cancellation charges as established by NP. Orders for special product, orders including customer's own material (COM) and orders pursuant to expedited delivery programs, may not be canceled.

An Expedite Fee of a minimum of 3% of net will be charged for orders requiring less than standard lead time.

PRICES

Prices are subject to change without notice. List prices shall be those in effect on the date of receipt of purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. Prices in effect at time of shipment prevails in the event of a discrepancy.

INSTALLATION RATE

Not to exceed $175 LIST per hour (non-union)
Not to exceed $355 LIST per hour (union)

PROJECT MANAGEMENT FEE

Senior Project Manager; not to exceed $250 LIST per hour
Project Manager; not to exceed $190 LIST per hour
Project Coordinator; not to exceed $170 LIST per hour

DESIGN/LAYOUT FEE

Not to exceed $285 LIST per hour

TAXES

All sales, use, excise and other taxes applicable to the sale of the products shall be paid by customer. If customer claims an exemption from any tax, customer shall submit to NP the appropriate exemption certificates.

LEAD TIME

Please contact Customer Service for current lead time at customerservice@neutralposture.com or 979.778.0502.

CUSTOMER'S OWN MATERIAL (COM)

A customer who requests a fabric or other surface material not standard to NP's line of products, must submit samples of the requested material to NP prior to entry of a customer order. NP shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories and/or Canadian Standards Association. If the COM is acceptable, NP will then establish a price for using the COM. For a description of the procedures for submitting samples and testing, contact Customer Service. NP shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Customer shall indemnify and hold NP harmless for any damages, injuries or losses arising out of or related to use of the COM on the product.

STORAGE FEE

Any changes made by the customer to postpone the delivery date on orders which have already gone into production, will be charged a storage fee. This fee will be applied to both partially and fully built orders. NP will advise of fee prior to applying charge.

COMPLIANCE WITH LAW

Customer is solely responsible for compliance with all applicable federal, state and local laws, ordinances, regulations, rules and standards relating to the installation, maintenance, use and operation of the products.

TERMS AND CONDITIONS

SHIPPING

All standard discount orders are F.O.B origin prepaid and add, delivered by way of parcel or freight carrier dock to dock. NP will designate the shipping mode and carrier based on geographical location and best service as defined by our Logistics Department.

Any order requiring special delivery services other than normal dock-to-dock delivery will incur additional charges. These services include but are not limited to residential delivery, limited access delivery, palletization, lift gate service, inside delivery, call before delivery, re-routed deliveries, specific delivery date/time requests, or congestion fees. These charges will be quoted upon customer request.

Conditions beyond the control of NP, including weather, available facilities, and traffic conditions, may affect the exact delivery time. NP shall not be responsible for a specific carrier delivery date or time unless it has made a specific delivery commitment in writing.

Delivery date and time are at the discretion of the carrier within reasonable transit time unless special arrangements have been agreed to in writing between the customer and NP prior to shipment.

Accessorial Charges *(including but not limited to)*

Delivery Appointment Required
Inside Delivery/Pick Up
Items Over 96 Inches

Mine sites
Sites requiring security inspections prior to pick up or delivery.
Wind farm sites
Airports

Contact Customer Service at customerservice@neutralposture.com or 979.778.0502 Option 2 for pricing.

DELAY/FORCE MAJEURE

NP shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the customer, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, NP may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available product or cancel any purchase order.

FREIGHT DAMAGE

Upon receipt of shipment consignee is responsible for checking delivery for shortages or signs of damage. If a problem is discovered, bring it to the driver's attention immediately. If any of the goods called for on the Bill of Lading are shorted or damaged, consignees should not accept them until the carrier makes a notation on the freight bill of the shorted or damaged goods. The more precise the notation, the easier the claim can be resolved. NP's responsibility ceases when the consignee signs the freight delivery receipt as received in good condition. Shipping claims must be made within thirty (30) days of shipment delivery.

RETURNS

The return of product without written authorization by NP shall not be accepted. All merchandise returns must be pre-approved by the corporate office and sent freight prepaid. Contact the Warranty Department, warrantyrequest@neutralposture.com, to receive a Return Merchandise Authorization (RMA) number for any return. RMAs are valid for thirty (30) days and any returned merchandise without a RMA number will be refused.

No deductions from any NP invoices can be made for return merchandise until it is approved by the corporate office. No deductions will be honored until returned goods are processed through our Quality Control Audit.

All returns for canceled orders must be pre-approved by the corporate office and sent freight prepaid. No returns will be authorized unless our inventory allows it, the parts are in good reusable condition and it was sold within the last thirty (30) days. Authorized seating returns will be charged a thirty percent (30%) (twenty percent (20%) for GSA) restocking fee, by agreement, to cover handling, inspection, stocking and repackaging. Authorized systems returns are subject to a forty-five percent (45%) of list restocking charge. Products not currently offered for sale by NP (including COM) shall not be authorized for return. All returned products must be unused, in original condition and in the original NP packing cartons. No refund or credit will be given for damaged products.

WARRANTY CLAIMS

NP reserves the right to specify that items or parts claimed to be defective, be returned to the factory for our inspection. If the claim is justified, repair or replacement of defective parts under warranty will be made through NP at no cost to the customer. NP will, at its discretion, reimburse the furniture dealer for labor (actual costs only) on warranty parts. The furniture dealer must submit a quote to be approved prior to service. If approved, the furniture dealer must then submit an invoice to NP for reimbursement after the service is completed. Freight for products and parts covered under warranty will be covered for the forty-eight (48) contiguous states and the District of Columbia, with the method of shipping at NP's discretion. All claims must include the product serial number. NP will have no warranty obligation if the product was subjected to abuse, alteration, misuse, negligence or accident or if the user fails to perform the proper maintenance for the product.

warrantyrequest@neutralposture.com

Selling Policy

WARRANTY

Neutral Posture warrants to the original purchaser only that the products Neutral Posture manufactures and sells to purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

This comprehensive warranty applies to all products installed or reconfigured by an authorized installer.

Warranty period set forth below is for 24-hour, 7 days a week, multi-shift use. Should any failure occur to a product listed below during the applicable warranty period from the date of shipment, Neutral Posture shall, upon prompt written notice, repair or replace, at its discretion, the affected part or parts.

PRODUCT AND PERIOD OF WARRANTY

Lifetime

Panels and panel connector parts, high pressure laminate worksurfaces, table tops and common tops, storage

10 Years

Cascade worksurfaces, height adjustable worksurface supports (except for gas lift), Electric height adjustable bases (including motor), laminate overhead doors, sliding doors, desktop and storage accessories (unless otherwise specified)

5 Years

Table bases, tapered table legs, anti-fatigue mats, operational parts, controls, electrical, lighting (except light ballasts, bulbs and power supply), special or custom product, height adjustable worksurface support gas lift, modesty/privacy screens, mobile screens, desktop screens

3 Years

Fabric

1 Year

Light ballasts, bulbs and power supply

This warranty does not apply to:

- Damage caused by a carrier.
- Normal wear and tear or acts or omissions of parties other than Neutral Posture (including user modification, improper use or installation of products).
- COM or other third party materials applied to products.
- Products not installed by or under the auspices of a Neutral Posture Dealer.
- Dramatic temperature variations or exposure to unusual conditions.
- Changes in surface finishes including colorfastness due to aging or exposure to light.

The express warranties contained herein are in lieu of all other warranties, express or implied, including any warranties of merchantability and fitness for particular purpose and all other warranties arising from course of dealing or usage of trade.

The remedies provided above are the customer's sole remedies for any failure of Neutral Posture to comply with its obligations regarding the workmanship of its products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Neutral Posture, with respect to or arising out of the product furnished hereunder.

CERTIFICATIONS & STANDARDS

ANSI/BIFMA

Independent tests show that Equity components meet or exceed current ANSI/BIFMA X5.6 Panel System and ANSI/ BIFMA X5.9 Storage Unit standards. Electrical components are UL listed. Panels have tested to NRC ratings of 0.75.

SCS INDOOR ADVANTAGE CERTIFICATION

The Equity product line is certified by SCS Global Services for indoor air quality.

DESIGN

NP reserves the right to make changes and improvements in design and materials and to discontinue parts and components at their discretion.

WOMEN'S BUSINESS ENTERPRISE (WBE)

This certification is administered by the Women's Business Enterprise National Council (WBENC) and is used by most large corporations to qualify potential vendors as credible diversity suppliers.

WOMAN OWNED SMALL BUSINESS (WOSB)

The U.S. Small Business Administration's WOSB Federal Contract Program provides greater access to federal contracting opportunities for WOSBs. The program allows contracting officers to set aside specific contracts for certified WOSBs and helps federal agencies achieve the existing statutory goal of five percent of federal contracting dollars being awarded to WOSBs. NP is certified as a WOSB.

HISTORICALLY UNDERUTILIZED BUSINESS (HUB)

The Texas Historically Underutilized Business (HUB) program encourages the use of HUBs in state procurement and provides information to minority and woman-owned businesses on the state's procurement process.

BUSINESS AND INSTITUTIONAL FURNITURE MANUFACTURER'S ASSOCIATION

NP is a member of the Business and Institutional Furniture Manufacturer's Association (BIFMA). Tests developed by BIFMA and approved by the American National Standards Institute (ANSI) determine the strength and durability of office furniture in its everyday use. Although this testing does not serve as a warranty or guarantee, NP standard products within this price list meet or exceed applicable ANSI/BIFMA X5.6 Panel Systems and ANSI/BIFMA X5.9 Storage Unit standards. Combinations of options added on to the standard products may not meet ANSI/ BIFMA standards. Those combinations which do not meet ANSI/BIFMA standards are not available on GSA. Additionally, Equity is BIFMA level 2 certified. For more information, contact Customer Service at customerservice@neutralposture.com.

GENERAL INFORMATION

Neutral Posture pedestals, overheads and storage cabinets ship with lock cores. The locks are field installed. If your purchase order does not specify key-alike you will automatically receive random lock cores with your order.

Neutral Posture furniture can be keyed-alike or random keyed.

KEY-ALIKE

Furniture may be keyed alike at no charge if specified with a furniture order. Write "key-alike" in the description of your purchase order for any storage piece you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Neutral Posture will select key numbers from the standard range of 226 – 425. Key numbers will not be repeated unless over 199 sets are ordered.

There is no charge for key-alike orders if placed with the furniture order.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

KEYS

A key is shipped with every lock core. 199 key numbers are available. For numbers above 199, contact Customer Service. Additional keys and key blanks are available.

MASTER KEYING

Neutral Posture locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. Master keys must be ordered separately. See service parts below for master key model # and pricing.

INSTALLING LOCK CORES

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts below for change key model number and pricing.

SERVICE PARTS

MODEL #	DESCRIPTION	LIST
NLCKE_ _ _	Shrouded Key *(Specify key number desired)*	$23
NAKC	Change Key	$23
NKM	Master Key	$23

NOTE: A letter of approval on company letterhead from the client must accompany all orders for change and master keys.

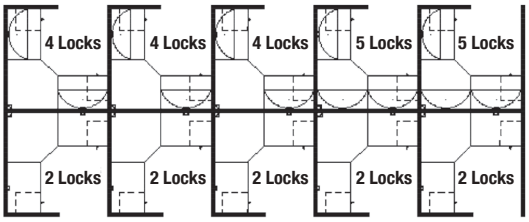
NOTE: Neutral Posture locks/keys are not compatible with Knoll Equity pedestals/double pedestals.

HOW TO SPECIFY KEY-ALIKE

Following is an example of how to specify key-alike for a cluster of 10 workstations.

STEP 1

Using the project floor plan, count the number of locks in each workstation.



STEP 2

Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

3 workstations with 4 locks per station 2 overhead w/laminate fronts
2 workstations with 5 locks per station
5 workstations with 2 locks per station

STEP 3

For the first group (3 sets of 4 locks), enter the number of workstations in the quantity column.

QTY	MODEL #	DESCRIPTION	UNIT LIST	EXT LIST
3	**NSPEC4**	Set of 4 cores/keys	N/C	N/C

STEP 4

Then enter the model number "NSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 4 locks per station, add the suffix "4"). Up to 30 lock cores are available in a set (i.e., NSPEC 30).

QTY	MODEL #	DESCRIPTION	UNIT LIST	EXT LIST
3	**NSPEC4**	Set of 4 cores/keys	N/C	N/C

STEP 4b

If the station has overheads w/laminate fronts add a suffix for the number of locks needed for the overheads w/laminate fronts for that group (i.e., for 2 overhead laminate front locks per station, add the suffix "OL2").

QTY	MODEL #	DESCRIPTION	UNIT LIST	EXT LIST
3	**NSPEC4OL2**	Set of 4 cores/keys, 2 for overheads w/laminate fronts	N/C	N/C

STEP 5

Repeat for other groups.

QTY	MODEL #	DESCRIPTION	UNIT LIST	EXT LIST
3	**NSPEC4OL2**	Set of 3 cores/keys	N/C	N/C
2	**NSPEC5**	Set of 5 cores/keys	N/C	N/C
5	**NSPEC2**	Set of 2 cores/keys	N/C	N/C

Your key instructions are complete.

Neutral Posture will select key numbers for each set from 199 available numbers.

For additions to existing installations, specify desired key numbers in the description.

GSA Contract Overview

GSA CONTRACT

We have had a contract with GSA for over 25 years and they continue to be our most favored customer.

NP is dedicated to helping government agencies meet their facilities and acquisition needs. NP is registered with the System For Award Management (SAM) formerly Central Contractor Registry (CCR) with ORCA certifications, has an assigned cage code of 0UTL8 and is eligible to receive federal contract awards. NP is also recognized as a Woman Owned Small Disadvantaged Business by the U.S. Small Business Administration (SBA).

WOMEN-OWNED SMALL BUSINESS (WOSB)/ ECONOMICALLY DISADVANTAGED WOMEN-OWNED SMALL BUSINESS (EDWOSB)

The U. S. Small Business Administration (SBA) issued the Final Rule to amend its regulations governing small business contracting procedures. The SBA has increased the emphasis and awareness of contracting mandates regarding the new 5% spend mandate for WOSB/EDWOSB's similar to those in place for 8a, SDV and HUB Zone businesses.

The SBA has also implemented a Sole Source vehicle for Economically Disadvantaged Women-Owned Small Businesses (EDWOSB). Neutral Posture, a small business manufacturer, received this certification in April of 2016.

Our Packaged Office contract includes many great manufacturing partners and we are willing to team with other manufacturers to support strong GSA Dealers and meet the needs of our customers.

26. SAM
NP is registered in System For Award Management (SAM).

NOTE: It is mandatory that all Government purchase orders be made out to NP only. Local Dealers are not authorized to accept purchase orders, issue invoices or receive payment of Government funds for these items without serious violation of this Federal Supply Schedule Contract.

Wall Mounting

WALL MOUNTING SUGGESTIONS

The following information is provided only as a guide and represents minimum recommendations only. Neutral Posture does not accept responsibility for the attachment of any Neutral Posture product to a customer's site wall. Wall specification/construction is the responsibility of the customer and its structural engineer/architect. Failure to properly attach Neutral Posture products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Neutral Posture products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each usable shelf length.

NOTE: A cabinet's top is considered a "usable shelf" and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the customer and its structural engineer/architects to specify the fasteners and method for attaching the Neutral Posture supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the customer should always consult local code agencies.

	New Construction	Existing Construction				
		Cinder Block or Poured Concrete Masonry Wall	Wood Stud Wall, the studs being **FULL HEIGHT** to the roof/floor above	Wood Stud Wall, the studs being only ceiling height	Steel Stud Wall, the studs being **FULL HEIGHT** to the roof/floor above	Steel Stud Wall, the studs being only ceiling height
Stud Specification	Wood studs, grade #2 or better, 3 ½" minimum width, OR Metal studs, minimum 25 gage thickness, 3 ⅝" minimum width	The wall must be a minimum of 6" thick, and must be full height to the roof/floor structure above	Wood studs must be Grade #2, or better, 3 ½" minimum width	Wood studs must be Grade #2, or better, 3 ½" minimum width	Metal studs must be minimum 25 gage thickness, 3 ⅝" minimum width	Metal studs must be minimum 25 gage thickness, 3 ⅝" minimum width
Stud Centers	Metal and wood studs must be spaced at 16" c/c maximum.	N/A	Wood studs must be spaced at 16" c/c maximum.	Wood studs must be spaced at 16" c/c maximum.	Metal studs must be spaced at 16" c/c maximum.	Metal studs must be spaced at 16" c/c maximum.
Stud Height	Metal and wood studs must extend upwards, and be securely attached to the roof/floor structure above.			Wood studs must be braced above the ceiling, and be securely attached to the roof/floor structure above Affix #2 grade 'cap' across the top of the studs, then place diagonal studs from the top cap up to underside of the roof/ floor structure above.		Metal studs must be braced above the ceiling and be securely attached to the roof/floor structure above Affix metal bracing 'cap' across the top of the studs. Then place diagonal studs from the top cap up to underside of the roof / floor structure above.
Mounting the Neutral Posture Supplied Cleat, Bracket, Frame, etc	Insert a 2" x 6" wood block, #2 grade or better, [or a locally approved flexible wood backing system] horizontally between each of the studs to accommodate the full width of the cabinet and beyond to the next stud. Fasten the wood block to each stud using three screws at the ends of each block. (Fasten the locally approved wood backing system as directed by the manufacturer.) Fasten the Neutral Posture supplied wall mounting cleat, bracket, frame, etc directly to each wood block every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6" and fasten the lower horizontal element to each wall stud, using one fastener per stud.	Fasten the Neutral Posture supplied cabinet wall mounting cleat, bracket, frame, etc. directly to the masonry wall every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wall every 6" and fasten the lower horizontal element to the wall every 16".	In the desired location of the cabinet mounting rail, remove an 8" high section of drywall the width of the cabinet and beyond to the next stud. Insert a 2" x 6" wood block, #2 grade or better, horizontally between each of the exposed studs. Fasten the wood block to each stud using three screws at the ends of each block. Replace the drywall and repair as desired. Fasten the Neutral Posture supplied wall mounting cleat, rail, frame, etc directly to the wood block every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6", and fasten the lower horizontal element to each wall stud, using one fastener per stud.	In the desired location of the cabinet mounting rail, remove an 8" high section of drywall the width of the cabinet, and beyond to the next stud. Insert a 2" x 6" wood block, #2 grade or better, horizontally between each of the exposed studs. Fasten the wood block to each stud using three screws at the ends of each block. Replace the drywall and repair as desired. Fasten the Neutral Posture supplied wall mounting cleat, rail, frame, etc directly to the wood block every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6", and fasten the lower horizontal element to each wall stud, using one fastener per stud.	In the desired location of the cabinet mounting rail, remove an 8" high section of drywall the width of the cabinet and beyond to the next stud. Insert a 2" x 6" wood block, #2 grade or better, [or a locally approved flexible wood backing system] horizontally between each of the exposed studs. Fasten the wood block to each stud using three screws at the ends of each block. Replace the drywall and repair as desired. Fasten the Neutral Posture supplied wall mounting cleat, rail, frame, etc directly to the wood block every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6", and fasten the lower horizontal element to each wall stud, using one fastener per stud.	In the desired location of the cabinet mounting rail, remove an 8" high section of drywall the width of the cabinet and beyond to the next stud. Insert a 2" x 6" wood block, #2 grade or better, [or a locally approved flexible wood backing system] horizontally between each of the exposed studs. Fasten the wood block to each stud using three screws at the ends of each block. Replace the drywall and repair as desired. Custom Finishes Program

While Neutral Posture offers a large selection of unique finishes, we understand you might want to create a signature on your project or brand your project. We are offering an easy way for you to provide pricing to your client.

CUSTOMER'S OWN FABRIC

Neutral Posture can apply any UL fire rated fabric. This will add to the lead time as we will require three yards of fabric to test on a panel. Test yardage should be sent to the factory address in Bryan, TX with the project name clearly marked on the label noting test yardage.

Neutral Posture Test Fabric
Attention: Systems Product Manager
3904 N. Texas Ave.
Bryan, TX 77803

We can also grade-in any fabric from any supplier in the industry. Please contact Customer Service for grade-in pricing. Note that all grade-ins must be pre-approved for suitability before production begins.

CUSTOMER'S OWN LAMINATE

All of Neutral Posture's standard laminates are Wilsonart. For your project, you can select any Wilsonart laminate and use L1 for standard laminates, L2 for premium laminates and L3 for custom and virtual library programs. An upcharge may apply for matching edge banding. Please contact Customer Service for more information.

We can also grade-in any laminate from any other supplier. Please contact Customer Service for grade-in pricing. Note that all grade-ins must be pre-approved for suitability before production begins.

CUSTOM RAL PAINT FINISHES

Whether it is an 8 person or 1,000 person project, use any RAL powder coat color on your metal products. If you have any questions, please contact Customer Service for more information.

Specify

1. Model #
2. Fabric
3. Paint

Application Notes

The panel is fabric covered. If two different fabrics are used on one panel, the price will reflect the cost of the most expensive panel fabric.

NOTE: Power duplexes cannot be installed on 12" W panels. Side mount receptacles available on 24" W panels and wider.

Assembly

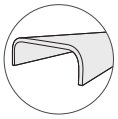
Included
- Panel
- Top cap
- Metal raceway covers

Ordered Separately
- Posts
- Panel connectors
- Electrical components

Top Cap Styles

3 – Beveled

N – Flat



Pricing is for P1 paint colors. Add the appropriate upcharge if using P2 or P3 trim.

Specify

1. Model #
2. Insert paint
3. Paint

NOTE: Power duplexes cannot be installed on 12" W panels. Side mount receptacles available on 24" W panels and wider.

Application Notes

Insert Panels are constructed with a tapered aluminum frame that is mitered in the corners. Insert panels may be ordered multiple insert options or as an open frame for complete accessibility through the panel.

Assembly

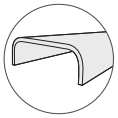
Included
- Panel
- Top cap
- Metal raceway covers

Ordered Separately
- Posts
- Panel connectors
- Electrical components

Top Cap Styles

3 – Beveled

N – Flat



Pricing is for P1 paint colors. Add the appropriate upcharge if using P2 or P3 trim.

Specify

1. Model #
2. Paint

Application Notes

Used to connect panels of the same height.

Bottom glides on post allow for up to 1 ½" of vertical adjustment.

Add "NS" to the end to of the model number to specify without shroud for use with Tequity panels.

Assembly

Included

- Single height post
- Panel connector
- Appropriate metal shroud

Panel Wall Starter

Specify

1. Model #
2. Paint

Application Notes

Used to start a run of panels by fastening to an existing wall and attaching a connector assembly to it. Creates 1¼" space from face of wall to centerline of post. Constructed of steel.

NOTE: Neutral Posture assumes no responsibility for wall construction or performance of fasteners used.

Assembly

Included
- Panel top & bottom hook
- Panel connector

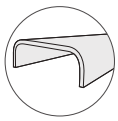
Not Included
- Fasteners to attach to wall

Ordered Separately
- Post
- Shrouds

Top Cap Styles

3 – Beveled

N – Flat



Wall Mounted Channel

Specify

1. Model #
2. Paint

Application Notes

Allows hanging of all components and accessories on reinforced building walls.

NOTE: Neutral Posture assumes no responsibility for wall construction or performance of fasteners used.

Assembly

Included
- Extruded aluminum channel

Specify

1. Model #
2. Paint

Application Notes

Bottom glides on post allow for up to 1 ½" of vertical adjustment.

Specify one multi-height panel connector **(EP3PCMF)** for each low panel when using either a dual or triple height post in a multi-height connection.

Dual Height Posts
Used where 2 monolithic panels of 2 different heights intersect.

Triple Height Posts
Used where 3 monolithic panels of 3 different heights intersect.

Assembly

Included
- Muti-height post

Ordered Separately
- Panel connectors
- Metal shrouds

Stack-On Panels

COMPONENTS

Equity stack-on panels provide the flexibility to increase the overall height of any standard Equity panel.

The stack-on panel is available in all standard Equity widths and a variety of heights in both slotted and slotless versions.

STACK-ON PANELS W/ SLOTS

Stack-on panels with slots provide the capability to hang standard Equity components such as shelves and overheads as long as the weight load does not exceed 3lbs. per linear inch.

STACK-ON PANELS W/O SLOTS

Stack-on panels without slots do not allow for hanging components, but do provide a cleaner aesthetic when specifying window applications.

Up to two (2) load bearing stack-on panels may be stacked on top of a standard Equity panel as long as the total height above the base panels is no taller than 40" and neither individual stack-on panel is taller than 20".

Stack-on panel width must match the width of the panel it is stacking on.

Stack-on panel connectors must be used between adjacent stack-on panels.

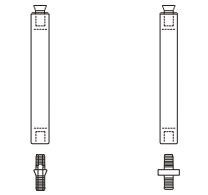
STACK-ON PANEL CONNECTORS

STANDARD STACK-ON POST

Standard stack-on post bottom uses a conical shaped bolt that connects it to the full height post directly beneath it. Panel connectors for the top of the stack-on post must be ordered separately to match the geometry of the stack-on panels.

EXTENDED STACK-ON POST

Extended stack-on post bottom uses a double-threaded round connector to attach to the full-height post directly beneath it. Multi-height panel connectors **(EPNPCMF)** must be used on either side of this connector to provide a smooth transition for full-height post covers. Standard panel connectors are used along the top of the stack-on panels.



STANDARD EXTENDED

SPECIFYING STACK-ON CONFIGURATIONS

All connectors between the base panel and stack-on panel MUST have flat (N) profile.

Specify

1. Model #
2. Paint

Application Notes

Stack-on post must be used between adjacent stack-on panels.

Standard Stack-on

Standard stack-on post bottom uses a conical shaped bolt that connects it to the connector directly beneath it. Panel connectors for the top of the stack-on post must be ordered separately to match the geometry of the stack-on panels.

Extended Stack-on

Extended stack-on post bottom uses a double-threaded round connector to attach to the full-height post directly beneath it. Multi-height panel connectors **(EPNPCMF)** must be used on either side of the bottom of this connector to provide a smooth transition. Standard panel connectors are used along the top of the stack-on panels.

Coat Hook

Aluminum coat hook attaches to any exposed Equity vertical slot. There are two versions. The straight version will work on any Equity vertical slot except for those on an inside corner. The postless end version is handed and extends beyond the edge of a panel with a postless end. Hand is determined by which side of the panel the coat hook is installed on while facing the panel.

Available in two colors
Black (B)
Matte Aluminum (P)

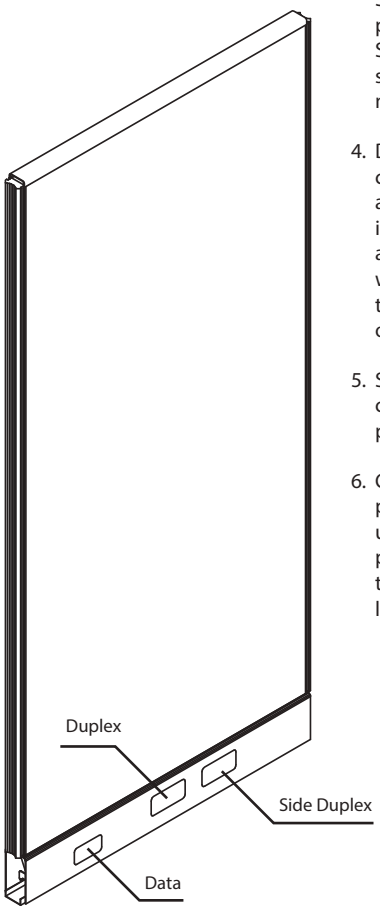
Electrical
How to Order

"E" Series electrical systems consist of a 4-circuit and a 6-circuit system. Each circuit in the systems provides a maximum of 20 amps. The four circuit system has eight wires; the six-circuit system has ten wires. Both 8- and 10-wire systems contain two 10-gauge "super" neutrals and two ground wires so that sensitive electronic equipment may be easily protected from unwanted electrical interference. "E" Series electrical can be connected to either single phase or three-phase building power supplies.



SPECIFICATION CHECKLIST

The following is a general checklist to ensure your order has been specified properly and to expedite entry of your order. It should be reviewed by a licensed electrician to ensure compliance with any local code requirements.

1. Base or ceiling infeed modules. One for each point of connection to the building power supply. Select model desired. Electrical connection to the building power supply must be made by a licensed electrician to ensure proper installation.

2. Select panels. Conduit jumpers are used to pass power to electrified panels. These panels do not have factory-installed power wiring, but modular power components are field-installed.

3. Shrouds must be used for each panel to panel point to complete the raceway connection. Shrouds are included when post assemblies are ordered. Shrouds can also be ordered separately when building a multiple height connection.

4. Duplex receptacles. Specify the circuit which receptacles are to access: #1, #2, #3 and #4D for 2+2 info eight-wire applications and additionally #5D and #6D for ten wire applications. If connecting to single-phase supply, do not order #2 and #5D receptacles.

5. Select and order appropriate conduit jumpers to pass power between panels.

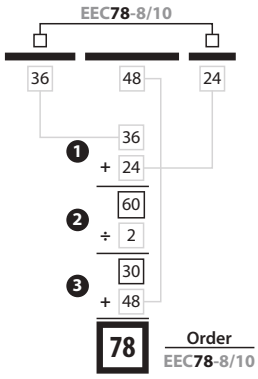
6. Conduit Jumpers are for regular panel to panel connections or used to pass power through panels from terminal block to terminal block, which can be located up to 12 feet apart.

Calculate Correct Jumper Length

1) Add widths of both panels containing terminal blocks.

2) Divide by 2.

3) Add width of any non-electrified panels in-between. The result is the correct jumper length.



7. Modular wiring components. Internal panel wiring is fully modular and is field-installed into the raceway of panels. When wiring is field-installed the following components must be specified:

A. Terminal blocks
To branch circuits, splice jumpers or locate receptacles. Blocks snap-lock into place and are always located in the center of a panel. Panels have one block location only. Base infeed and ceiling infeed modules are each designed to plug into a terminal block, which must be ordered separately from the infeed.

B. Duplex Receptacles
Always specified separately according to circuit access.

C. Side Mount Receptacles
Available for panels 24" and wider. All standard receptacles fit into side mount position on right side of terminal block connector end. Therefore, no circuit number restriction.

SPECIAL CONSIDERATIONS

In addition to the checklist the following points should be remembered when planning a layout utilizing this electrical distribution system.

1. "E" Series electrical consists of four or six 20-amp circuits, any of which can be accessed as desired by plugging in a specially numbered receptacle at terminal block locations in panels.

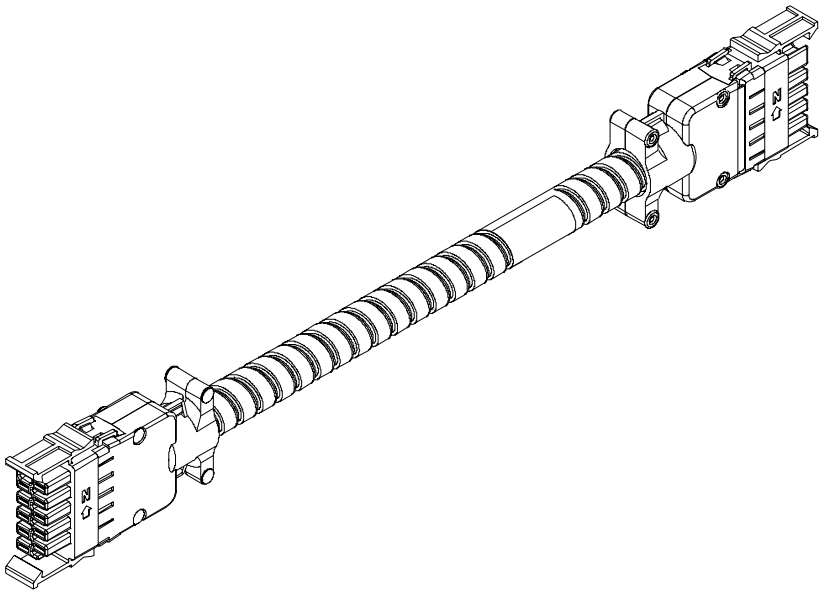
2. Electrified panels can be interspersed between non-electrified panels with the use of extra-length jumpers which pass circuitry to the next electrified panel.

3. For isolation, the 2nd ground must be properly and separately grounded to the building by the installing licensed electrician.

4. Certain cities or localities carry special codes limiting the use of certain items within this system. Equity products are available which comply with these code requirements. Neutral Posture recommends contacting your local sales representative for clarification and possible restrictions.

Because of our continuous product improvements, these specifications are subject to change without notice. Please consult your sales representative for the latest information prior to ordering.

ELECTRICAL



BASE INFEED MODULE

Modular base-mounted infeed conduits in eight-wire and ten-wire versions are provided for connection to building power supplies housed in underfloor outlet boxes, floor mounted (monuments) or wall outlet boxes. Available "unhanded" for ease in introducing power from left or right of infeed location. The cover plates provided by others, for floor monuments, recessed floor boxes or wall boxes are to be punched to receive a half-inch (trade size) knockout hole for installation of the box fitting, which is included on the infeed circuit. The wiring connection is to be made within the box inside the monument or behind the floor or wall flush plate. The 4' 6" conduit can be shortened to meet field conditions by cutting the infeed (loose) end. Base Infeed Module plugs into terminal block at the receptacle location. For New York and San Francisco base infeed, see page 63.

Connecting to the building power source must be performed by a licensed electrician.

CEILING INFEED MODULE

The straight tubular infeed may be shortened (on its bottom end) if it will not fit field conditions. ceiling infeed module is filled with 8- or 10- wire conduit and plugs into terminal block in adjacent panel. Harness length is 19'. Upper tube of module is 6' 7" in length.

RACEWAY PANELS WITH FIELD-INSTALLED COMPONENTRY:

1. An independent cableway with capacity for up to ten ⅜" dia. communications cables.
2. A terminal block at the center of the panel allows for jumpers to connect panel to panel electrical connections and placement of duplex receptacles.
3. Terminal block allows for receptacles in two locations, one on each side of the center of the panel (back to back), into which duplex 15-amp receptacles can be placed. The raceway covers are provided with removable knockouts.
4. For increased electric demands a second duplex receptacle per panel side can be added to panels 24" and wider. This receptacle plugs directly into the right side terminal block connector ends. Any standard "E" Series receptacle may be used.
5. The faceplates on both sides of the panel are removable without removing receptacles.

The system and all standard components are UL-listed. Because of our continuous product improvements, these specifications are subject to change without notice. Please consult a Neutral Posture sales representative for the latest information prior to ordering.

Cat 6	28	11

8-WIRE SYSTEM

2 + 2
The 2+2 electrical system consists of four 20 amp, 120 volt, 60-Hertz circuits. These circuits will accommodate 120 volt single phase, 120/240 volt split phase and 120/208 volt three phase power. The system components have a 20 amp capacity. The (NEC) only allows steady loads to 80% of capacity which is equivalent to 16 amps. Each circuit can generally power 8 – 10 duplex convenience outlets that are performing a normal load. However, in heavy load situations, such as computer systems each circuit will power 3 – 5 duplex outlets.

3 + 1
The 3+1 electrical system consists of four 20 amp, 120 volt, 60-Hertz circuits. These circuits will power a 120 volt single phase, a 120/240 volt split and a 120/208 volt three phase power. Each system components have the capacity to power 20 amp. The National Electric Code (NEC) only allows steady loads to 80% of capacity which is equivalent to 16 amps. Each circuit can generally power 8-10 duplex convenience outlets that are performing a normal load. However, in heavy load situations, such as computer systems each circuit will power 3 – 5 duplex outlets. If each work station has two convenience duplex outlets and one protected duplex, the 8-wire (4-circuit) system can supply a cluster of 6 – 10 workstations from each infeed.

10-WIRE SYSTEM

3 + 3
The 3+3 electrical system consists of six 20 amp, 120 volt, 60-Hertz circuits. The circuits will accommodate 120 volt single phase, 120/240 volt split phase and 120/208 volt three phase power. Each system components have the capacity to power 20 amp. The National Electric Code (NEC) only allows steady loads to 80% of capacity which is equivalent to 16 amps. Each circuit can generally power 8 – 10 duplex convenience outlets that are performing a normal load. However, in heavy load situations, such as computer systems each circuit will power 3 – 5 duplex outlets. If each workstation has two convenience duplex outlets and one protected duplex, the 10-wire (6-circuit) system can supply a cluster of 9 – 15 workstations from each infeed.

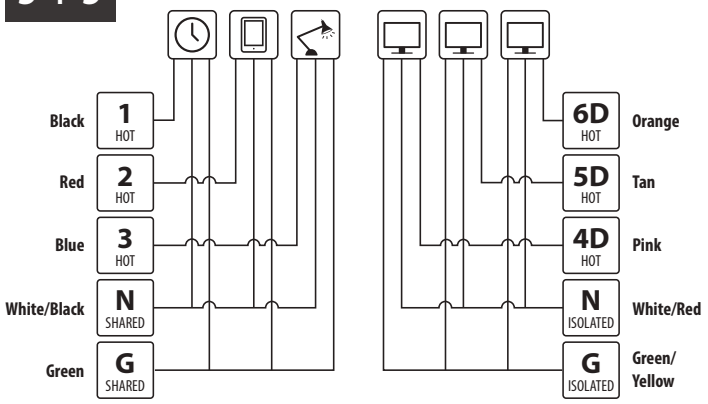
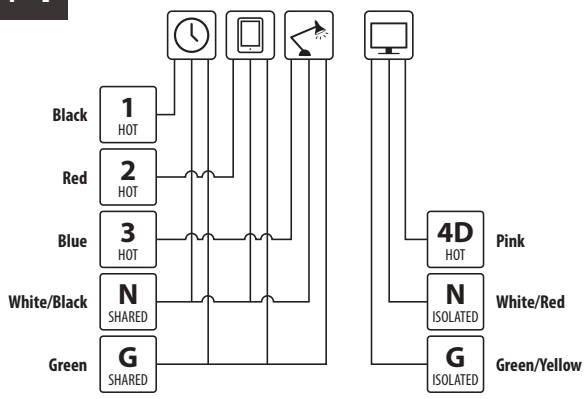
3 + 3



3 + 1



COMPATIBILITY

Equity power systems use similar components in all electrical systems. However, all parts are not functionally interchangeable and should be used based on instructions given.

Ceiling Infeeds

Application Notes

To connect a metal ceiling infeed to a corner or straight connection use an adjustable angle connector or an adjustable angle connector with multi-height connector for a three-way connection.

Ceiling Infeeds

Electrical harnesses not included with modules. Modules are hollow to accommodate power and/or data cables from source into systems furniture.

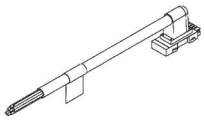
With electrical harness installed, infeed holds 28 Cat 6 cables.

No "hang on" capabilities. Module cannot be used for panel support.

Powder coated module is 120" long metal extrusion with attachment hooks at proper height to attach to appropriate height post.

Cables/conduit are laid into module by removal of two-piece front 1½" wide vertical access cover which runs the length of the extrusion.

Includes escutcheon plate which is white to integrate with ceiling. Tube is trim colored to match system trim.



Base Infeeds

An infeed conduit connects to the wall or floor outlet box of a building's power supply and plugs into a terminal block in panel raceway. Power entry can be from either left or right side of panel. Metal cover conceals the baseboard connection and is reversible for either left or right entry. Can be field-cut to proper lengths. Color is black. A terminal block must be ordered separately.

Jumper End Base Infeeds

Connects by hardwiring to a building's electrical supply in floor or wall box by a licensed electrician. Plugs into one set of terminal connections at end of terminal block. Terminal block must be located in panel adjacent to source. Terminal block is ordered separately.

Base infeed can be field cut by a licensed electrician to necessary length. Conduit is encased in black plastic sealer.

DESCRIPTION	MODEL #	LIST
10 Pack	EE1KC10	$85

Application Notes

Receptacles are black only.

Terminal Block

A modular eight or ten wire block that snaps into the base location in center of the panel. Used to branch circuits, splice jumpers or locate duplex receptacles back to back.

Side Mount Receptacles

Plugs directly into the right side of terminal block to provide a second duplex receptacle where required.

Any "E" Series receptacle can be used in panels 24" wide and wider. Side mount receptacle bracket **(EE1SMRB10)** is needed when using a side mount receptacle.

Configurations

8-wire
2 + 2
3 + 1

10-wire
3 + 3

Application Notes

Jumpers transmit power circuits from one panel mounted terminal block to another. Can carry power through panels where no terminal blocks are installed. The length of the jumper corresponds to the distance between the terminal blocks.

Calculate the Correct Length

1. Add widths of both panels containing terminal blocks.
2. Divide by two.
3. Add width of any non-electrified panels in-between.

The result is the correct jumper length.

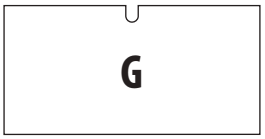
WIRING & CABLING

GROMMET



When a standard grommet is specified it is in a rear, centered location and is available in black only. Corner worksurfaces provide two edge grommets.

SCALLOP

Scalloped grommets feature additional half grommets on either end to provide a full grommet when two tops meet. The half grommet also allows for cord management by itself when it is wrapped by panels and not adjacent to other worksurfaces.

CABLE DROP
⅜" Cable management gap

EDGE DETAIL

STANDARD
3mm ABS

WOODGRAIN
2mm PVC

SURFACE MATERIALS

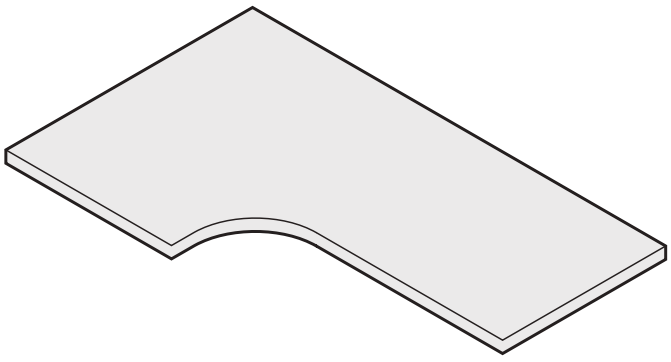
STANDARD WORKSURFACE
High pressure laminate

CASCADE WORKSURFACE
Thermafoil (available on Cascade edge only)

EDGEBAND
Available matching or contrasting.
Upcharge may be applicable.

SUPPORTS
Under worksurface — black powdercoat
Countercap supports — paint

WORKSURFACES



Top surface available in standard laminates. For a complete list of color offering consult the Finishes page (page 14) at the beginning of the price list.

Underside of all 24" deep and deeper rectangular worksurfaces are predrilled for mounting of support bracketry.

The front edge of 30" deep cantilevered surfaces should not be loaded in excess of 180 pounds.

Worksurfaces are designed to provide a ⅜" cable management gap between the back edge of the worksurface and wall panel.

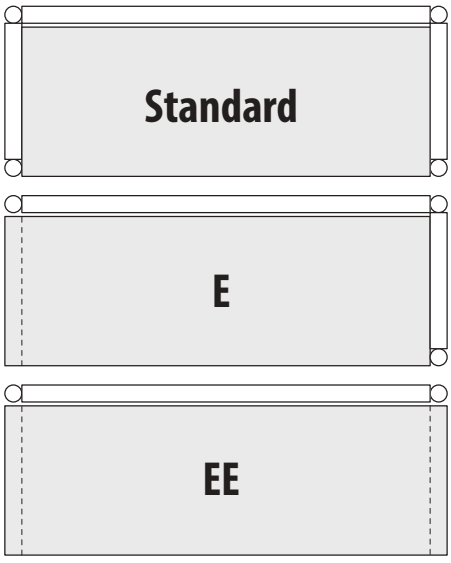
D & P TOPS

Equity "D" and "P" tops are actual depth plus 1½" to cover two posts and may not be panel wrapped. This allows an adjustable bar support to support the flat end without being visually obtrusive. Adjacent worksurfaces should be specified so as not to cover a post where a "D" or "P" top may be used.

WORKSURFACE DIMENSIONS

Equity is measured from the center of the posts on each end of the panel. A standard worksurface is dimensioned to fit in a fully panel wrapped configuration. It is therefore 1 ½" narrower than the nominal panel dimension. If you would like the worksurface to extend to cover one post you will need to add an "E" to the worksurface item number. This will add 1 ½" to the width of the surface. If you would like the worksurface to extend to cover both posts then you will need to add "EE", extending the surface by 3" from the standard. Adjustable height work surfaces, page 88, are 2" narrower than a standard surface to meet anti-pinch point requirements around their perimeter.

E. . . . Covers 1 post
EE . . Covers 2 posts



24" DEEP STRAIGHTS & 15" TOWERS

When adding a 15" tower to the end of a worksurface you will need to add a "**T**" to the end of the model number in order to make the worksurface and tower completely flush. This will only be necessary on 24" deep worksurfaces with a width from 48" – 84".

(T) – Available on

- Support must be installed for every four feet of width. As indicated, 5' worksurfaces require three supports; two panels are required to install the center support.
- The applications shown in the table emphasize the fundamentals of worksurface loading and support. As long as these criteria are met, supports can be interchanged.
- Supporting drawer pedestals can replace only one support.
- Depth of stretchered worksurfaces must be equal to or less than side panel widths.
- Stretchered worksurfaces should be used where heavy loading is anticipated.
- Cantilevers cannot be used as primary support for 36" deep surfaces or 30" deep surfaces wider than 72".
- The front edge of 30" deep surfaces should not be loaded in excess of 180 pounds.

Weights listed are the Business Institutional Furniture Manufacturers Association (BIFMA) functional load requirements for panel hung worksurface loading. If loads larger than these listed are anticipated, approval from Neutral Posture is required.

INSTALLATIONS WHICH VIOLATE THESE REQUIREMENTS WILL NOT BE COVERED BY THE NEUTRAL POSTURE WARRANTY.

Grommet $33

Scallop $68

Application Notes

Blended worksurfaces are designed to take the place of two adjacent worksurfaces by blending them into one top. The front of the worksurface is curved to provide a smooth transition to the next attached worksurface.

Support Information

All supports must be ordered separately.
See page 84.

Worksurface Loading & Support
See page 73.

A center support must be used with a 54" wide or wider worksurface.

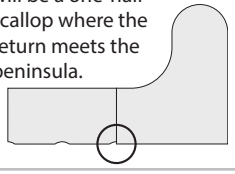
Grommet

Blended peninsulas do not come with a grommet. Due to this, if the worksurface adjacent to the "C" side is ordered with scallops there will be a one-half scallop where the return meets the peninsula.



Support Information

All supports must be ordered separately. See page 84 – 85.

Worksurface Loading & Support
See page 73.

Center support must be used for all surfaces which exceed 48" in length.

Application Notes

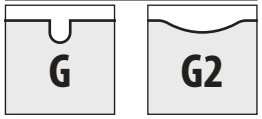
Provides 18" of vertical movement.

Grain Direction

Wiring & Cabling



Grommet $33 **Scallop $68**

Specification Guidelines

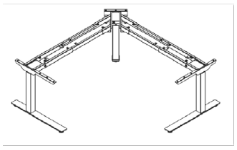
Order an adjustable height worksurface to match the panel(s) width the worksurface will be attached to. The worksurface cannot be configured to cover a partial panel.

There will be a 1" space around the perimeter of the adjustable height worksurface in order to prevent pinch points.

When used as a solitary worksurface perpendicular panels of 18" minimum width must be specified on both sides for stability.

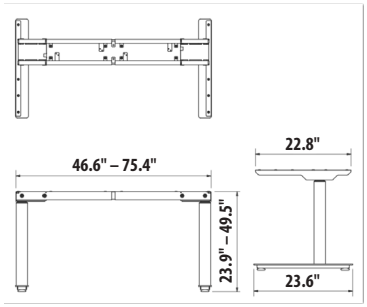
When used in conjunction with a stationary worksurface there should be a perpendicular panel at the free end of the adjustable worksurface. The free end of the fixed worksurface should be supported with a cantilever or pedestal.

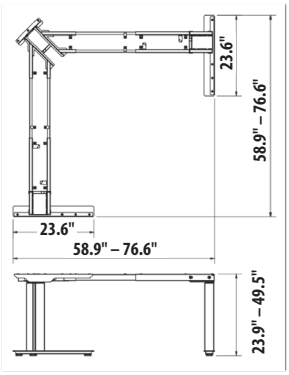
NOTE: Adjustable worksurface meets BIFMA loading requirements for safety. Mechanism is designed to have up to 100 lbs. of load and function smoothly.



Electric Height Adjustable Base

DESCRIPTION	FOOT DEPTH	MODEL #	BLACK OR SILVER
2 legs	23 ⅜"	**TBAHL224**	$2,651
3 legs	23 ⅜"	**TBAHL324**	$3,713





Specify

1. Model #
2. Trim color

Application Notes

Electric Height Adjustable Base
Adjustable height bases can be used with 24" and 30" deep worksurfaces. Worksurfaces must be between 48" – 84" wide.

Adjustable height bases have a capacity of 264 lbs evenly distributed.

Comes with four position memory controller.

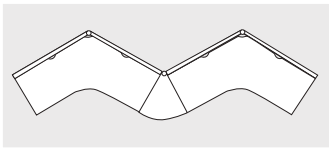
Anti-collision stops and reverses the travel of the table when the table collides with a fixed object during operation.

3-stage legs offer a large height adjustment range of 24" – 50".

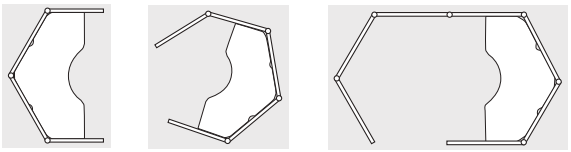
Worksurfaces
120° Planning

These worksurfaces are designed specifically for Equity 120° applications. The (L/R) suffix at the end of a model number indicates a defined pedestal location. If the worksurface has no defined pedestal location, the (L/R) represents the curved side of the top. All tops and tables are available with 2mm edge band or a cascading edge.

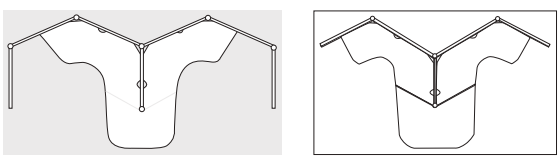
Worksurface: W3
This worksurface, combined with the T3 transition top, works best with the "apartment" layout. This application allows for stations on both sides of the spine, and is ideal for high density layouts. Available in extended versions for placement directly next to another worksurface.



Worksurface: W4
This top works well in the "open house," "full house," and "big house" layouts for call center, professional and managerial applications.

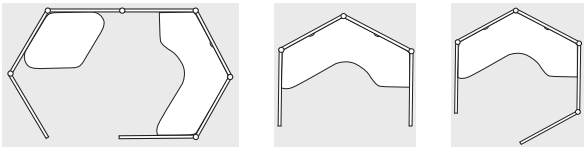


Worksurface: W5 (L/R)
With transition top T5 and this worksurface, teaming is made easy using the "townhouse" or "open house" layout. The shared space allows for call center, professional or technical applications.

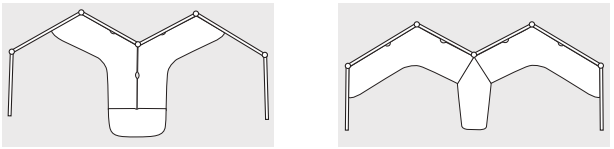


Worksurface: W6 (L/R)
In the "big house," "full house" or "open house", this worksurface allows for a pedestal on one side (determined by the L/R).

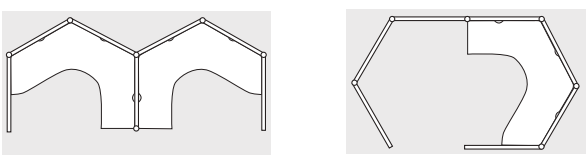
Applications for this top include a call center with the "open house," technical applications with the "full house," and managerial layouts with the "big house."



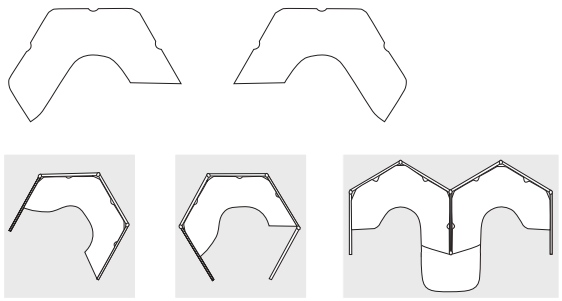
Worksurface: W7 (L/R)
Used in conjunction with a T4 transition top, the W7 worksurface provides a great teaming space when the "townhouse" layout is used. The "open house" layout incorporates the T2 transition top for professional or technical stations with shared space for conferencing. Available in extended versions for placement directly next to another worksurface.



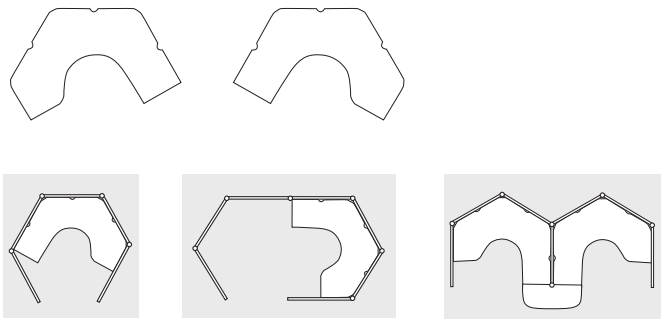
Worksurface: W11 / W1118 (L/R)
This top is a spacious option for a technical station in the "open house" layout. Adding a T2 transition top provides additional teaming space. The W11 surface also fits nicely in a private managerial office or a "full house" professional application.



Worksurface: W12 / W1218 (L/R)
This top, with the T5/T518 transition top provides a technical office with shared conferencing space in the "open house" layout. The 18 return allows ample space in the supervisory application of the "full house."



Worksurface: W13 / W1318 (L/R)
This surface provides a teaming space with the T2/T218 transition in the "open house" layout. The W13/W1318 creates generous worksurface space in the "full house" as well as the management layout of the "big house."



Transition Tops
Transition tops require columns (not included — (page 85)) for support. Flat brackets (not included — (page 84)) are required to attach transition tops to adjacent worksurfaces.

Transition top

Transition top

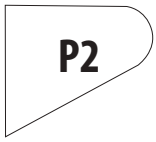
Transition top

Transition top

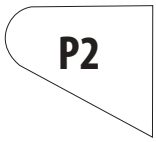
Peninsula Tops
Peninsula tops provide additional workspace in a "big house" layout.

Peninsula tops are freestanding and supported by table legs, columns or a combination of both (not included — (page 85)).

Peninsula top



Peninsula top: P2 right hand



Peninsula top: P2 left hand

T2 Transition Top

T2 transition top comes cut to fit against a postless end. If placing against an end with a post, add an "N" to the end of the model number so it is notched for the post.

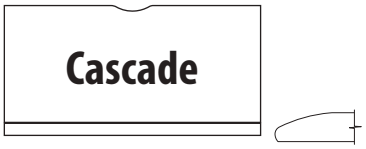
Support Information

Transition and peninsula tops require a column base for support.

All supports must be ordered separately.
See page 84 – 85.

Worksurface Loading & Support
See page 73.

CASCADE EDGE



Cascade edge worksurfaces are wrapped with a thermafoil sheet that is heated and pressed around a substrate. This substrate can be FSC certified upon request. Thermafoil is more susceptible to denting, impact, tearing and marring than conventional high pressure laminate and should be handled with care. Do not drag worksurfaces across any flooring surface. Treat cascade edge worksurfaces like veneer worksurfaces for optimum performance under normal conditions. Cascade edge worksurfaces come with a 10 year warranty that covers defects in workmanship and materials. This warranty does not cover damage occurring during or after installation.

Cascade edge worksurfaces in solid colors utilize a non-PVC construction and are also free of any plasticizers, pthalates and lead content.

Application Notes

Center-Located Edge Grommet
To specify, replace the "N" suffix from the model number with "G". Add **$68**.

Equity "L" worksurfaces are handed and may or may not cover a post on either or both sides. Hand is determined from the seated position. Option suffixes for Equity blended corners are as follows:

X. . . . No posts covered
L. . . . Left post covered
R. . . . Right post covered
B. . . . Both posts covered

Cable Sleeve with Cover

Used to pass cables through a worksurface. Fits 3" diameter hole, field cut, in worksurface. Smooth plastic prevents abrasion of cords and cables.

Cover snaps into sleeve. Cover has slots that allow passage of one or two cables, yet gives appearance of surface continuity.

Available in black only.

Edge Grommet

Designed to accommodate various styles and quantities of cords/plugs between rear of worksurface and panel for improved cord/plug management. Designed to work with Equity EW1 tops shipped after 2005.

Available in black only.

3. Edge band
4. Cantilever color

Extended Ends

E. . . . Covers 1 post
EE . . Covers 2 posts

Application Notes

Counter caps are designed for mounting on top of panels.

Counter caps fit between posts, appropriate to fit between two taller panels and a dual/triple height connectors.

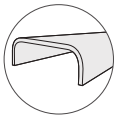
Support Information

Steel cantilevers are supplied.

Top Cap Compatibility

3 – Beveled

N – Flat



Pricing is for P1 paint colors. Add the appropriate upcharge if using P2 or P3 trim.

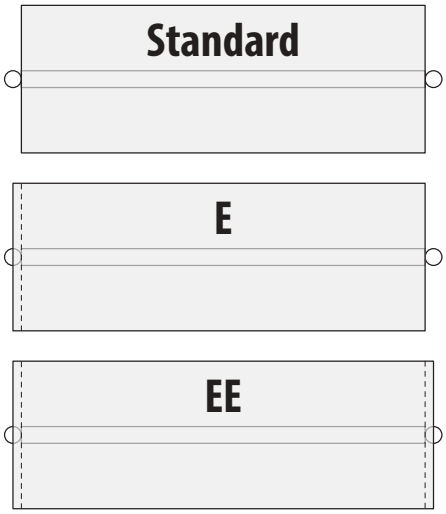
SHARED STORAGE DIMENSIONS

Equity is measured from the center of the posts on each end of the panel. A standard full laminate overhead is dimensioned to fit in a fully panel wrapped configuration. It is therefore 1-½" narrower than the nominal panel dimension. If you would like the full laminate overhead to extend to cover the center of one post you will need to add an "E" to the full laminate overhead item number. This will add ¾" to the width of the shared storage. If you would like the full laminate overhead to extend to cover the center of both posts then you will need to add "EE", extending the full laminate overhead by 1 ½" from the standard.

E . . . . Covers center of 1 post
EE . . Covers center of 2 posts



Specify

1. Model #
2. Laminate/Veneer

Overhead

Includes matching ABS edge band.

Wall Mounted Channel Application Notes

Allows hanging of all components and accessories on reinforced building walls.

Painted extruded aluminum with a plastic insert which snaps in place, covering mounting screws.

NOTE: Neutral Posture, Inc. assumes no responsibility for wall construction or performance of fasteners used.

Assembly – Wall Mounted Channel

Included

- Extruded aluminum channel
- Insert which snaps into place

LIGHTING

Just as the design of a work environment is important, a company's investment in workplace lighting is equally such. Light empowers a person's work, influences their mood and helps them focus. Workers need well-lit spaces to be productive and feel their best. Developing a work environment that supports worker well being and performance through the use of lighting will reduce employee stress, absenteeism and accidents while increasing work performance.

REED Premier

Properly diffused light provides a softly blended light pattern that reduces eye strain.

A single-touch on/off and touch and hold continuous dimming pad with last state memory.

The automatic turn off feature comes standard and will turn the fixture off after 10 hours of continuous use (±15 mins).

Specify Notes

60-watt power supply is required when interlinking.

Total interlinked system wattage cannot exceed 54 watts. See the interlinking combination chart for reference.

Extension fixtures come standard with 8" and 30" interlinking cords.

One occupancy sensor needed per string of interlinked fixtures.

FEATURES

BASE TYPES
- X Base
- Y Base w/ or w/o adjustable bar support
- Tapered Leg

BASE OPTIONS
- Bar height
- Flip top
- Casters

NOTE: Not all options are available on all bases.

WORKSURFACE TYPES
- Round
- Square
- Rectangular
- Oval

LEVELERS
Adjustable height levelers are included at no additional cost on all models.

Shank Length
X & Y bases — ⅜-16 x ¾"
Tapered legs — ⅜-16 x 1 ¾"

Leveler extensions can be ordered separately. Please contact Customer Service for information on ordering leveler extensions. Casters can be ordered in place of levelers for an upcharge on most standard height tables.

SAFETY
For safety and stability purposes, the caster and flip top options cannot be added to bar height tables or the following table models: TBR60, TBS48, TBS60, TBOT54120, TBOT60144.

CUSTOM TABLES
Custom size tables and custom height bases are available upon request, pending Engineering approval. Customization charges may apply. Contact Customer Service for additional information and pricing.

CONSTRUCTION

X BASE
X bases are made from cast aluminum with 2 ¼" tubing OD x 13 gauge.

Y BASE
Y base is made from cast aluminum with 2 ¼" steel tube.

X BASE MOUNTING PLATES
X base mounting plates are made of steel 4 gauge x 12" x 12" or 8" x 8".

Y BASE MOUNTING PLATES
Y base mounting plates are made from 0.187" x 6" x 8" fabricated steel.

WORKSURFACES
All worksurfaces are made with a core, high pressure laminate and edge band. All non-woodgrain edge bands are made of ABS material. All woodgrain edge bands are made of PVC material. The overall thickness is 1 ⅛".

WORKSURFACE HEIGHTS

Application Notes

Electric Height Adjustable Base
Adjustable height bases can be used with 24" & 30" deep worksurfaces. Worksurfaces must be between 48" – 84" wide.

Adjustable height bases have a capacity of 264 lbs evenly distributed.

Comes with four position memory controller.

Anti-collision stops and reverses the travel of the table when the table collides with a fixed object during operation.

3-stage legs offer a large height adjustment range of 24" – 50".

STORAGE

Neutral Posture is not only dedicated to good posture, we are also dedicated to making offices more efficient and more enjoyable to work in. Neutral Posture knows that to increase efficiency in the office things must be organized well and be easily accessible. Neutral Posture offers the most space efficient and easily accessible products on the market.

Neutral Posture offers many diverse storage units making sure you can always find the exact unit of storage for your office's needs. From small pedestals that can double as seating to large towers with wardrobe capability, Neutral Posture can fit your needs in any situation. Along with our wide range of storage options, Neutral Posture also lets you truly personalize your office equipment, making your office a welcoming place for not only your customers, but, your employees as well.

Neutral Posture provides storage units that work together--meaning that they will work better for you and your workspace. Neutral Posture allows customization by offering several different color options, fabric patterns and even several different pulls and lock options to make sure your office space looks exactly how you want. Storage units that are cohesive have numerous benefits, such as taking up less space, being easier to access and making your office look more unified.

TRUE DIMENSIONS

Disclaimer: While Equity panels and worksurfaces are based on centerline to centerline dimensions, all storage dimensions are true dimensions.

FEATURES

LOCK
- Lock core is removable.
- 24" Side access tower includes 2 locks. All others include 1 lock.
- Keyed alike available upon request.
- Master and change key available upon request. See (page 9).
- Individual locking drawers available upon request. Upcharge may apply.

DRAWERS
- Include full suspension steel ball-bearing slides.
- Drawer fronts include rubber bumpers for quiet operation.
- Slides include anti-rebound and quick disconnect features.
- File drawer dividers which allow side-to-side filing are sold separately.

SHELVES
- Shelves are adjustable in 1 ½" increments.

LEVELING GLIDES – TOWER
- Leveling glides allow for ⅞" adjustment.

LEVELING GLIDES – SIDE ACCESS TOWER
- Leveling glides allow for 1 ⅝" adjustment.

DOORS
- Cupboard and coat doors include concealed hinges that allow for 110° degree opening.

CONSTRUCTION

OUTER SHELL & DRAWER CONSTRUCTION
Welded steel frame construction & formed channels ensure strength in key areas.

FEATURES

COUNTERWEIGHT
- Two drawer cabinets include factory installed counterweights
- Low storage cabinets that do not include shelves do not need counterweight

LOCK
- Available on credenza products which feature drawers
- Lock core is removable
- Keyed alike available upon request
- Master and change key available upon request. See (page 9).

DRAWERS
- Include full suspension steel ball-bearing slides
- Drawer fronts include rubber bumpers for quiet operation

SHELF
- ¾" High adjustable shelf

LEVELING GLIDES
- 4 Leveling glides allow for ½" adjustment

TOP
- Available in metal, cushion and laminate

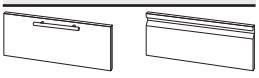
Credenza Includes

- 2 low storage cabinets
- 1 laminate top & ganging kit
- 1 credenza center support leg

Pulls



B – Bar Pull J – J Pull

Application Notes

- Credenzas must be assembled in the field
- When ganging 2 units together, order ganging kit
- Leveling glides allow for 1 ⅝" adjustment
- Drawer units include 1 – 6" drawer & 1 – 12" file drawer & counterweight

Center Leg

- Helps to gang 2 credenza pieces together side by side
- Eliminate the 4 legs in the center and replace with this single support leg

Ganging Kit

- Ganging kit for use when specifying laminate top separately, does not include center leg

Floating Top Supports

- Floating top supports may not be used on a metal top, includes top mounting bracket, screws & drill plate

FEATURES

SHELVES
- 1" thick.
- Adjustable in ½" increments.
- 2-high bookcases will accommodate binder-height storage on both shelves.
- All other bookcases, binder-height storage is available on all but 1 shelf.

LEVELING GLIDES
- 4 Leveling glides allow for 1 ⅝" adjustment.

SAFETY:
- To ensure stability, do not install a 4, 5 or 6 high bookcase in the center of a room.
- Bookcases should be installed back-to back or against a wall.

NOTE
- 2 high bookcases are slightly shorter than 2-high lateral files and double door storage cabinets.
- 2 high bookcases are designed to fit under a worksurface.

Graded In Fabrics

GRADED-IN AND COM UPHOLSTERY

Neutral Posture's furniture is manufactured to the highest standards. Our artisans are skilled in creating consistent finishes across all products and materials. However, the unique nature of upholstery and the other materials that are used in production means that no two pieces of furniture will be exactly alike. Fabrics will upholster differently based on composition and construction. Neutral Posture makes every effort to ensure that each item is produced to our exacting standards, but cannot be held responsible for slight variations in upholstery, color and general appearance.

Similarly, the images in our publications are as accurate as your monitor is calibrated. Customers are reminded that colors and finishes may vary according to the unique nature of each item of furniture.

Neutral Posture will not be responsible for variances in the acoustical performance of a panel due to the fact that certain fabrics perform differently from others. Additionally, Neutral Posture cannot guarantee that the graded-in fabrics will be Indoor Air Quality and/or BIFMA Level compliant. Please see the fabric manufacturer's website for these details and cleaning instructions specific to selected fabric.

For specific color matching requirements please contact Customer Servicet.

Please note: The finish codes used by Neutral Posture are used as a guide to the appearance of the furniture and should not be used to determine the specific materials used in the construction of an item of furniture.

The Neutral Posture Upholstery Department is pleased to offer a Graded-in program and also accepts COM for most products. For certain items or in cases of unusual or difficult fabric patterns additional material may be required. Any unusual or special cutting requirements must be requested in writing and a full-width fabric repeat sent to the Customer Service in order for a quotation to be provided. The customer is responsible for shipping COM to Customer Service.

Order Code

e.g.	**EP1FA3648R, W3513, 117**
EP1FA	Fabric panel
36	Width
48	Height
R	Raceway
W351-3	Foundation, Corn Silk
117	Soft Grey trim

Specification Information

Specify fabric and trim color. Post assemblies or connection elements must be ordered separately.

NOTE: Power duplexes cannot be installed on 12" W panels. Side mount receptacles available in 24" W panels and wider while using "E" series power.

Electrical components must be ordered separately.

NOTE: P2 trim colors are not available on EP1 panels and panel components.

Application Notes

Panel is fabric covered. If two different fabrics are used on one panel, price will reflect cost of the more expensive panel fabric.

NOTE: EP1 & EP2 Panels and components are available in legacy colors only.

Pricing is for P1 paint trim colors. Add the appropriate upcharge if using P2 or P3 trim.

EP2PG	Plexiglass Insert Panel
36	Width
48	Height
R	Raceway
PC	Clear
613	Silver trim

Specification Information

Specify insert type, insert color and trim color.

Application Notes

Top caps and base raceway covers are included with panels. Posts and panel connectors must be ordered separately.

NOTE: P2 trim colors are not available on EP2 panels or panel components.

Generation 2 insert panels incorporate the generation 3 mitered panel frame with generation 1 top caps and base raceway covers and will only work with generation 1 panels and panel components.

NOTE: EP1 & EP2 Panels and components are available in legacy colors only.

Pricing is for P1 paint trim colors. Add the appropriate upcharge if using P2 or P3 trim.

Generation 2 Insert Panel
(compatible with generation 1 panel components only)

Order Code

e.g.	**EP1PWS60, 117**
EP1PWS	Panel wall starter
60	Height
117	Soft Grey trim

Specification Information

Specify trim color.

NOTE: Neutral Posture, Inc. assumes no responsibility for wall construction or performance of fasteners used.

Application Notes

Wall starter:
Used to start a run of panels by fastening to an existing wall and attaching a connector assembly to it. Creates 1¼" space from face of wall to centerline of post. Constructed of steel.

The wall starter includes panel top and bottom hooks and modified panel connector. Fasteners not included to attach to wall.

Post and shrouds must be ordered separately.

Wall mount channel:
Allows hanging of all components and accessories on reinforced building walls.

Painted extruded aluminum with a plastic inset which snaps in place, covering mounting screws.

NOTE: EP1 & EP2 Panels and components are available in legacy colors only.

EP	End with post

Specification Information

Specify panel connector and shroud trim color.

Specify one multi-height filler (EP1PCMF) for each low panel in a multi-height connection.

NOTE: EP1 & EP2 Panels and components are available in legacy colors only.

EXCEPTION: EP1 posts connectors only are available in all colors as they may need to be specified when ordering stack-on panels with an EP3 profile.

Application Notes

Panel connectors stabilize panel to panel connections.

Panel connectors have painted finish and a quick mount design.

Mounting screws are included. Conical connector screw is included with post.

The EP1PCTF is a trim filler piece that is to be used when no other post part can be used in a given panel layout.

This piece butts against EP1PCS and EP1PCT, when installed as an addition.

Shrouds provide a finished raceway cover at posts. Two-way "L" connections do not require an inside shroud.

Panel Wall Starter

Specify

1. Model #
2. Paint trim color

Application Notes

Used to start a run of panels by fastening to an existing wall and attaching a connector assembly to it. Creates 1¼" space from face to wall to centerline of post. Constructed of steel.

NOTE: Neutral Posture assumes no responsibility for wall construction or performance of fasteners used.

Assembly

Included
- Panel top & bottom hook
- Panel connector

Not Included
- Fasteners to attach to wall

Ordered Separately
- Post
- Shrouds

Top Cap Styles

3 – Beveled

Wall Mounted Channel

Specify

1. Model #
2. Paint trim color

Application Notes

Allows hanging of all components and accessories on reinforced building walls.

Painted extruded aluminum with a plastic insert which snaps in place, covering mounting screws.

NOTE: Neutral Posture assumes no responsibility for wall construction or performance of fasteners used.

Assembly

Included
- Extruded aluminum channel
- Insert which snaps into place

EC1VWM	Vertical Wire Manager
80	Length
117	Soft Grey trim

Specification Information

Specify trim color.

Vertical Wire Manager:

A plastic strip designed to hide a cord running down the edge of the panel. Cut to desired length in field.

Ceiling Infeed Modules:

Electrical harnesses not included with modules. Modules are hollow to accommodate power and/or data cables from source into systems furniture.

With electrical harness installed, infeed holds 35 CAT 5 cables.

Cables/conduit are laid into the lower metal body by removal of the front 1-½" wide access cover and into the upper plastic extrusion by separating the front edge of the pliable tube. Infeed module is attached to an available post location of the appropriate height. The module can not be used for panel support and there are no "hang on" capabilities. Includes escutcheon plate. Plate and plastic tube are white to integrate with standard ceiling color.

No "hang on" capabilities. Module cannot be used for panel support.

Painted metal module is 120" long metal extrusion with attachment hooks at proper height to attach to appropriate height post.

To connect a metal ceiling infeed to a corner or a straight connection you must use an adjustable angle connector or adjustable angle connector with a multi-height panel connector.

Order Code

e.g.	**EP1CH, 117**
EP1CH	Coat hook
117	Soft Grey trim

Specification Information

Specify trim color.

Coat Hook and Coat Hanger available only in Dark Neutral, Medium Grey, Soft Grey or Taupe.

NOTE: EP1 & EP2 Panels and components are available in legacy colors only.

Application Notes

Coat Hanger
A plastic coat hanger available to hang on coat hook. EP1 Coat hook: Molded plastic hook hangs over EP1 panels to hold coats and hangers.

Coat hook must hang over straight post location if being used w/EP3 panels.

Carpet gripper:12 per package.

EP3 Coat hook
Aluminum coat hook attaches to any exposed Equity vertical slot. There are two versions. The straight version will work on any Equity vertical slot except for those on an inside corner. The postless end version is handed and extends beyond the edge of a panel with a postless end. Hand is determined by which side of the panel the coat hook is installed on while facing the panel. Available in two colors; Black (B) or Matte Aluminum (P).

EW1 Counter caps work with all existing counter caps and are for use on Generation 1 or Generation 2 panels only. Plastic cantilevers are supplied.

EW2 counter caps are for use with Generation 3 panels only. Steel brackets are provided.

Counter caps are designed for mounting on top of panels.

Straight counter caps overhang both sides of the panel equally.

Counter caps fit between posts, appropriate to fit between two taller panels and a dual/triple height connectors.

A counter cap extension (E) covers one post.

A counter cap extension (EE) covers 2 posts.

Steel mounted brackets are supplied.

EW1	Worksurface
CC	Curved corner
30	Width
15	Depth
117	Soft Grey laminate
117	Soft Grey edge
117	Soft Grey cantilever trim

Specification Information

Specify surface, trim and cantilever trim color.

EW1 counter caps work with all existing counter caps and are for use with Generation 1 or Generation 2 panels. Plastic cantilevers are supplied.

EW2 counter caps are for use with Generation 3 panels only.

Application Notes

Counter caps are designed for mounting on top of panels.

Corner counter caps-(E) extended one end, mount on top of 24", 30" or 36" panels at 90° to each other.

They are non-handed and screw holes for the mounting brackets must be field-drilled.

Steel mounting brackets are supplied.

A counter cap extension (E) covers one post.

A counter cap extension (EE) covers 2 posts.

117	Soft Grey trim

Specification Information

Specify shelf and stanchion trim color where required.

NOTE: Fabric on 72" privacy screens and will be railroaded (turned 90°).

WALL MOUNTING SUGGESTIONS

The following information is provided only as a guide, and represents minimum recommendations only. Neutral Posture does not accept responsibility for the attachment of any Neutral Posture product to a Customer's site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Neutral Posture products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Neutral Posture products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each usable shelf length.

NOTE: A cabinet's top is considered a "usable shelf" and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Neutral Posture supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

	New Construction	Existing Construction				
		Cinder Block or Poured Concrete Masonry Wall	Wood Stud Wall, the studs being **FULL HEIGHT** to the roof/floor above	Wood Stud Wall, the studs being only ceiling height	Steel Stud Wall, the studs being **FULL HEIGHT** to the roof/floor above	Steel Stud Wall, the studs being only ceiling height
Stud Specification	Wood studs, grade #2 or better, 3 ½" minimum width, OR Metal studs, minimum 25 gage thickness, 3 ⅝" minimum width	The wall must be a minimum of 6" thick, and must be full height to the roof/floor structure above	Wood studs must be Grade #2, or better, 3 ½" minimum width	Wood studs must be Grade #2, or better, 3 ½" minimum width	Metal studs must be minimum 25 gage thickness, 3 ⅝" minimum width	Metal studs must be minimum 25 gage thickness, 3 ⅝" minimum width
Stud Centers	Metal and wood studs must be spaced at 16" c/c maximum.	N/A	Wood studs must be spaced at 16" c/c maximum.	Wood studs must be spaced at 16" c/c maximum.	Metal studs must be spaced at 16" c/c maximum.	Metal studs must be spaced at 16" c/c maximum.
Stud Height	Metal and wood studs must extend upwards, and be securely attached to the roof/floor structure above.			Wood studs must be braced above the ceiling, and be securely attached to the roof/floor structure above Affix #2 grade 'cap' across the top of the studs, then place diagonal studs from the top cap up to underside of the roof/ floor structure above.		Metal studs must be braced above the ceiling and be securely attached to the roof/floor structure above Affix metal bracing 'cap' across the top of the studs. Then place diagonal studs from the top cap up to underside of the roof / floor structure above.
Mounting the Neutral Posture Supplied Cleat, Bracket, Frame, etc	Insert a 2" x 6" wood block, #2 grade or better, [or a locally approved flexible wood backing system] horizontally between each of the studs to accommodate the full width of the cabinet and beyond to the next stud. Fasten the wood block to each stud using three screws at the ends of each block. (Fasten the locally approved wood backing system as directed by the manufacturer.) Fasten the Neutral Posture supplied wall mounting cleat, bracket, frame, etc directly to each wood block every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6" and fasten the lower horizontal element to each wall stud, using one fastener per stud.	Fasten the Neutral Posture supplied cabinet wall mounting cleat, bracket, frame, etc. directly to the masonry wall every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wall every 6" and fasten the lower horizontal element to the wall every 16".	In the desired location of the cabinet mounting rail, remove an 8" high section of drywall the width of the cabinet and beyond to the next stud. Insert a 2" x 6" wood block, #2 grade or better, horizontally between each of the exposed studs. Fasten the wood block to each stud using three screws at the ends of each block. Replace the drywall and repair as desired. Fasten the Neutral Posture supplied wall mounting cleat, rail, frame, etc directly to the wood block every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6", and fasten the lower horizontal element to each wall stud, using one fastener per stud.	In the desired location of the cabinet mounting rail, remove an 8" high section of drywall the width of the cabinet, and beyond to the next stud. Insert a 2" x 6" wood block, #2 grade or better, horizontally between each of the exposed studs. Fasten the wood block to each stud using three screws at the ends of each block. Replace the drywall and repair as desired. Fasten the Neutral Posture supplied wall mounting cleat, rail, frame, etc directly to the wood block every 6". For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6", and fasten the lower horizontal element to each wall stud, using one fastener per stud. Fasten the Neutral Posture Supplied Wall Cleat With...	#10 x 2 ½" wood screws or equiv. in every mounting hole provided, screwed directly into the wood blocking	⅜6" x 3 ½" masonry screws Screws or equiv. in every mounting hole provided with 1 ¼" embedment, screwed directly into the masonry wall	#10 x 2 ½" wood screws or equiv. in every mounting hole provided, screwed directly into the wood blocking	#10 x 2 ½" wood screws or equiv. in every mounting hole provided, screwed directly into the wood blocking	#10 x 2 ½" wood screws or equiv. in every mounting hole provided, screwed directly into the wood blocking	#10 x 2 ½" wood screws or equiv. in every mounting hole provided, screwed directly into the wood blocking

Key Lock Program

GENERAL INFORMATION

Following is the Neutral Posture key lock policy, applicable to all products.

Neutral Posture pedestals, overheads, and storage cabinets ship without lock cores installed. The locks are field installed. If your purchase order does not specify key-alike you will automatically receive random lock cores with your order.

Neutral Posture furniture can be keyed-alike or random keyed.

KEY-ALIKE

Furniture may be keyed alike at no charge. Write "key-alike" in the description of your purchase order for any storage piece you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Neutral Posture will select key numbers from the standard range of 226 – 425. Key numbers will not be repeated unless over 199 sets are ordered.

There is no charge for key-alike orders if placed with the furniture order.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

KEYS

A key is shipped with every lock core. 199 Key numbers are available. For numbers above 199, contact Sales Support. Additional keys and key blanks are available.

MASTER KEYING

Neutral Posture locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. Master keys must be ordered separately.

INSTALLING LOCK CORES

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

SERVICE PARTS

MODEL #	DESCRIPTION	LIST
NLCKE_ _ _	Shrouded Key *(Specify key number desired)*	$23
NAKC	Change Key	$23
NKM	Master Key	$23

NOTE: A letter of approval on company letterhead from the client must accompany all orders for master keys.

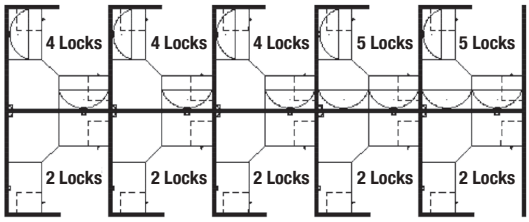
NOTE: Neutral Posture locks/keys are not compatible with Knoll Equity pedestals/double pedestals.

HOW TO SPECIFY KEY-ALIKE

Following is an example of how to specify key-alike for a cluster of 10 workstations.

STEP 1

Using the project floor plan, count the number of locks in each workstation.



STEP 2

Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station
3 workstations with 4 locks per station
2 workstations with 5 locks per station

STEP 3

For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

QTY	MODEL #	DESCRIPTION	UNIT LIST	EXT LIST
5	**NSPEC 2**	Set of 2 cores/keys	N / C	N / C

STEP 4

Then enter the pattern number "NSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., NSPEC 30).

QTY	MODEL #	DESCRIPTION	UNIT LIST	EXT LIST
5	**NSPEC 2**	Set of 2 cores/keys	N / C	N / C

STEP 5

Repeat for other groups.

QTY	MODEL #	DESCRIPTION	UNIT LIST	EXT LIST
5	**NSPEC 2**	Set of 2 cores/keys	N / C	N / C
3	**NSPEC 4**	Set of 4 cores/keys	N / C	N / C
2	**NSPEC 5**	Set of 5 cores/keys	N / C	N / C

Your key instructions are complete.

Neutral Posture will select key numbers for each set from 199 available numbers.

For additions to existing installations, specify desired key numbers in the description.

EQUITY

In order to specify an Equity locking component with an "H" series core, apply an "A" suffix to the Equity Base pattern number.

All keyed locks in the Equity system are randomly* keyed, as a standard offering. For those requiring all locks within a workstation (or group of workstations) to be keyed alike, Equity also offers a key-alike option.

EQUITY LOCKING COMPONENTS

Identify the cabinets to be keyed alike by adding the suffix "P" to the standard catalog number (i.e., EC20F36AP indicates a key-alike EC20F36A cabinet). The cabinet will be factory-prepared with the hardware mechanisms excluding the lock core and key. List price will be reduced by $22.

MULTIPLE KEY-ALIKE PACKAGES

For multiple keys of the same number, specify ALCKE - (number of keys desired, from 2 to 8.) Price is: Number of Keys x $22. (i.e.: ALCKE-5 Pkg. of five cores with keys = $110.00)

*Randomly keyed means that no attempt is made to assure that locks have the same number or that they are, in fact, different.

LOCK CORES

Order the lock cores required separately (ALCKE series). Cores are numbered sequentially, with up to 250 different combinations available (ALCKEH6001- ALCKEH6250). Use one line item for each quantity of lock cores to be keyed alike. Series H6001-H6100 are standard lead-time.

MASTER KEY

A master key (AKM) is available that will unlock all cabinets and pedestals with the same prefix letter, for

example: H6001, H6002. A single key is supplied and priced, as shown below.

DESCRIPTION	CATALOG NUMBER	LIST
Equity Lock and Keys	**ALCKE(H6___)**	$28
Change Key	**AKC**	$23
Master Key	**AKM**	$23

SHIPMENT

Additional lead time of 2-4 weeks may apply when more than 100 lock sequences are specified for key-alike (contact Sales Support for current lead times).

The key-alike core and keys are shipped separately from the components for field installation in the appropriate workstation components.
